

## 2,6-Dimethyl aniline

[View Details](#)

### Introduction

---

CAS NO. 87-62-7

### Classification

---

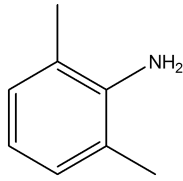

Agrochemicals->Intermediates

Dyes & Pigments ->Intermediates

Pharmaceutical and Intermediates->Intermediates

### Product Description

---

Product Name	2,6-Dimethyl aniline
CAS NO.	87-62-7
Molecular Formula	C <sub>8</sub> H <sub>11</sub> N
Structural Formula	
Molecular Weight	121.18
Appearance	Colorless or light brown liquid
Purity	≥99.0%
Water	≤0.2 %
Density	0.98 g/mL
Application	Used as pesticide, pharmaceutical intermediates, used in the manufacture of methylene, furosulin and lidocaine, etc
