

Lauroyl chloride

[View Details](#)

Introduction

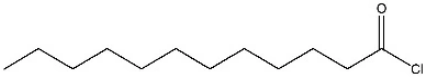

CAS NO. 112-16-3

Classification

Agrochemicals->Adjuvants

Surfactants

Product Description

Product Name	Lauroyl chloride
CAS NO.	112-16-3
Molecular Formula	C ₁₂ H ₂₃ ClO
Structural Formula	
Molecular Weight	218.76
Purity	≥98.0%
Free Chlorine	≤2.0%
Appearance	colorless or yellowish oily liquid
Application	It can be used as acylation agent in the synthesis of surfactants and other organic chemicals.
