

M-Toluic acid

[View Details](#)

Introduction

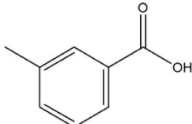

CAS NO. 99-04-7

Classification

Agrochemicals->Intermediates

Pharmaceutical and Intermediates->Intermediates

Product Description

Product Name	M-Toluic acid
CAS NO.	99-04-7
Molecular Formula	C ₈ H ₈ O ₂
Structural Formula	
Molecular Weight	136.15
Assay	≥99%
Melting Point	108-111°C
Isophthalic Acid	≤0.2%
Benzoic Acid	≤0.7%
Isomer	≤0.2%
Application	It is used in organic synthesis intermediates and pesticide intermediates. It is also used as fluorescent brightener, it is the key intermediate of DEET.
